To whom it may concern:

Our building and code department was established in 2008. Any new homes started and or completed in Stone County prior to January 1, 2008 were not required to have building permits. For this reason, no inspections were conducted on these structures and no Certificate of Occupancies were issued in Stone County prior to 2008.

As of March 15, 2024, Stone County, Mississippi uses the **2003 IRC** International Residential Code and any Certificates of Occupancy issued will state this.
