

WHEN YOU CAN'T FIND A COPY OF YOUR DATA PLATE

<https://lvr2.ibts.org/#/Request>

Institute for Building Technology and Safety

We are open Monday – Friday 8:30am – 5:00pm EST to assist you. If you call after hours, please leave a voice message so that we can contact you the following business day. Our phone number is 866-482-8868.

IBTS may be able to provide a copy of the data plate/performance certificate if your home has certification numbers.

Please note that in the absence of an original data plate, IBTS will send you a Performance Certificate which can be substituted in place of the data plate.

The Data Plate/Performance Certificate provides the following:

- Serial Number
- Date of manufacture
- Name of the manufacturer and plant location
- Wind zone, roof load zone and thermal zone

The IBTS Performance Certificate is based on production reports provided by the home manufacturer. The certificate is based on the zone requirements in effect at the time the home was manufactured, for the location of the home's initial destination (dealer/retail center). IBTS is not liable for changes to the home's construction, or subsequent home moves that may affect the home performance information verified.

Regular \$100.00 (10 business days)
